REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest the invention as claimed. The independent claims of the instant invention require an imaging device for producing *an image of the bottom surface of the foot* and *superimposing* the image on indicia in combination with other elements of a foot measuring system (emphasis added).

Although the Gould et al. device does have an imaging device, there is no suggestion or motivation to use the imaging device in a manner to superimpose the image on indicia; either in the Gould et al. reference or the other prior art of record. Furthermore, the imaging device of Gould et al. functions in a substantially different manner than the applicant's claimed device and would not normally be used to superimpose an image.

The imaging device of Gould et al. sends image data to a computer for producing a video image on a monitor which is substantially divergent to the claimed device. Therefore, the claimed invention is allowable over the art of record since the *invention as a whole* is neither disclosed nor suggested by the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
